Le Nichoir Wild Bird Conservation Centre,

a donor-funded non-profit organization, is the largest centre of its kind in Canada, with a mission to conserve wild birds as part of our natural heritage. With humble beginnings in a borrowed 19th century barn in 1996, Le Nichoir has since cared for over 40,000 wild birds with the help of hundreds of volunteers and a dedicated staff of professionals. Over the years, thousands of individuals of all ages have participated in its science-based environmental education programs.

Whitlock Golf & Country Club

offers 27 meticulously maintained holes providing a true test of golfing skill and accuracy in a beautiful setting. The club has a long history of environmental conservancy, dating back to 1932, and demonstrated by its commitment to course maintenance practices that reduce ecological impact and preserve wildlife habitats. Whitlock achieved Certified Audubon Cooperative Sanctuary status in 1999 and is one of only 71 courses in Canada so qualified.
